

A. OVERVIEW

1. The consultant will provide specified survey services in support of roadway, bridge, drainage, right-of-way and other NDOR projects. Such services, some of which are described in NDOR's "Standard Work Categories", may include, but are not limited to, the following:
 - a. Engineering Surveys
 - b. Topographic Surveys
 - c. Geodetic Surveys
 - d. Land Surveys
 - e. Hydraulic Surveys
 - f. Above ground Utility Surveys

B. QUALIFICATIONS, KNOWLEDGE AND EXPERIENCE

1. The services shall be provided under the direction of a Nebraska licensed surveyor who is experienced with the specified types of survey work to be performed under this agreement.
2. The consultant shall have working knowledge of and follow, when applicable:
 - a. Survey industry standards
 - b. Local, State and federal laws and regulations pertaining to the practice of surveying
 - c. Nebraska Department of Roads, Roadway Design Division Procedure for Preliminary Surveys
 - d. Nebraska Department of Roads Survey Crew Traffic Control Policy
 - e. Nebraska Department of Roads "Instructions to Flaggers"
 - f. Nebraska Department of Roads Employee Safety Manual
 - g. Nebraska State Plane Coordinate System Datum Adjustment Computations Lambert Conformal System
 - h. Manual on Uniform Traffic Control Devices
3. Before surveying on Railroad Property, the consultant's personnel shall complete a Railroad approved safety course.
4. Before surveying on the project, the consultant's personnel shall possess an NDOR flagger certification card.

C. SOFTWARE AND EQUIPMENT REQUIREMENTS

1. All equipment and supplies required for the work will be provided by the Consultant. The survey and data gathering equipment used by the consultant must be capable of producing final survey and design files compatible with MicroStation V8.05.02.55 or later (the State's drafting software), and GEOPAK V8.08.02.73 or later (the State's design software) or Power GEOPAK Power V8i (SELECTseries 4) Version 08.11.09.872 or later.

Files must also adhere to the State's drafting procedures, guidelines, and file naming conventions. All surveys will be completed using NDOR's feature code library which will be provided to the Consultant by NDOR.

2. When applicable, all surveys shall be made by real time kinematic methods using Global Positioning System (GPS) technologies tied to the Nebraska State Coordinate System, unless prior alternate methods are approved by NDOR. In areas where GPS signals cannot be obtained, conventional methods will be used.

D. EXPECTATIONS FOR THE DELIVERABLES

1. All surveys shall be completed in accordance with the Nebraska Department of Roads, Roadway Design Division Procedure for Preliminary Surveys and applicable local, state and federal laws and regulations pertaining to the practice of surveying.
2. Electronic and paper copies of all survey data will be provided to NDOR. Copies may include but not necessarily be limited to:
3. Electronic Files: Data Collector files, Microstation/Geopak files, including topographic drawings.
4. Paper copies: Report of Utility Status, Drainage Structures Sheets, Control Point Tie Sheets, Survey notes, etc.
5. NDOR will review all data submitted for conformance to NDOR standards and to the parameters set out in the Task Orders. Necessary revisions based on NDOR review comments will be provided by the Consultant.
6. Work will be performed at the location(s) identified, and within the established schedule, in each Task Order Scope of Services.
7. Survey work will be used to complete designs, construction plans, right of way plans and other documents to be used for NDOR projects.
